

Manual.Cash 'Keyboard 70+'

The USB keyboard for various POS terminals. Profit from the benefits of individually programmable keys and an extra USB hub as a convenient mouse port.

Working with POS terminals made easy and convenient

- Perfectly adaptable to application needs
Easily adjust Manual.Cash 'Keyboard 70+' to the individual requirements of a variety of POS terminals.
- Ready for action worldwide
Manual.Cash 'Keyboard 70+' is available for use in many countries worldwide.

A sustainable investment

- State-of-the-art business
Make use of advanced USB technology as a standard interface for PCs and POS terminals.
- Ready to connect
Use the USB hub as an easy, convenient way of connecting your mouse.

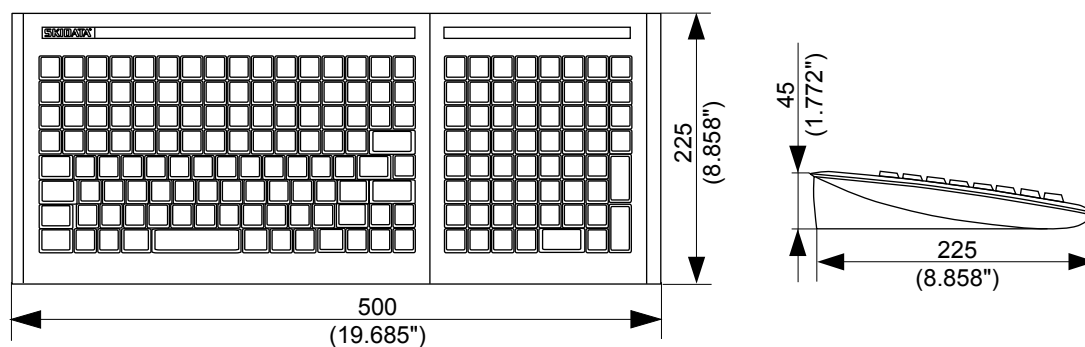

Individually adjustable

- The application determines the keyboard
Easily adapt the keys to match your requirements and ticket types.
- Programmable function keys
Allocate frequently used functions to the programmable function keys for quick, reliable access.

Durable technology

- Easy to maintain
The flexible key caps are easy to replace if they get worn
Also works with PS/2 ports
- Tidyness included
The cable stores neatly on the bottom of the keyboard, which helps to avoid cable tangle.
